HARRY M. SWIFT, Owner

Golden, Colorado

RETAIL PRICE LIST

January 1963

We invite you to visit us and see our tree and shrub nursery farm. We grow completely hardy landscape material for the Rocky Mountain area.

Plants are sold bare root, ball and burlap, or in containers, either cans or baskets. We will offer plants in the way most consistent with sound horticultural practice.

Planting and landscape design services are available.

Guarantee: We are able to save you the extra cost of paying for the guarantee needed by careless gardeners because we know our landscape material will grow. We grow it here in our wind, moisture and soil conditions. There are a few exceptions when we do guarantee to replace in case of loss. We will explain when you are here.

Terms: FOB our nursery, cash or check.
